Information Systems undergraduate with over 1 years of hands-on experience developing web applications through academic projects, organizational activities, freelance work, and professional internships. Experienced in building responsive web and mobile applications, RESTful APIs, database-driven systems, and secure role-based applications using modern web technologies. Eager to contribute to a collaborative engineering team, continuously learn new technologies, and build software that delivers meaningful value to users.

Work Experiences

Dinas Komunikasi dan Informatika - Kota Tangerang <i>Web Programmer Intern</i>	Sep 2025 - Dec 2025
- Developed and maintained modules for an internal web-based project management system using CodeIgniter 4 and MySQL. - Implemented REST API integration to support efficient data communication across application modules. - Implemented Role-Based Access Control (RBAC) to enforce secure access permissions for multiple internal roles, including Web Developers, System Analysts, IT Support, and department management. - Maintained master data and transaction modules while improving application functionality based on internal user requirements. - Collaborated with developers and stakeholders to deliver reliable software solutions for internal operational workflows.	

Education Level

Universitas Gunadarma  - Jakarta, Indonesia <i>Bachelor of Information Systems, 3.82/4.00</i>	Sep 2022 - Sep 2026 (Expected)
1st Place Winner, USB (Unlimited Software Building) Article Writing Competition, Faculty of Computer Science and Information Technology.	

Organisational Experience

Badan Eksekutif Mahasiswa FIKTI - Gunadarma University <i>Information Technology Development Division</i>	Nov 2023 - Sep 2024
- Developed a website application for the TechnoFair 11.0 event, including informational pages and supporting features. - Built an Open Recruitment Volunteer website, including registration forms, data management, and user-friendly interfaces. - Developed the PEMIRA BEM FIKTI 2024/2025 website, used by students for the online election of the student executive board president. - Implemented clear UI structure and user flows to ensure accessibility for non-technical users.	

Skills, Achievements & Other Experience
