ABOUT ME

An Information Systems student with outstanding academic and interpersonal performance, focusing on modern web development and user experience. Proficient in HTML, CSS, and JavaScript, along with related frameworks, and equipped with strong problem-solving skills. Recently completed a web development program in a campus organization and is ready to apply these skills in a professional environment. With enthusiasm for creating interactive and responsive user interfaces, eager to contribute as a Programmer and take part in developing innovative digital solutions for your company.
